

Post 16 Results Day August 2018

Marsh Academy Post 16 students received their A Level and Vocational results this week and despite both being made 'more rigorous' there were many excellent results and a lot of happy students.

Natasha Prince was delighted with her results. "I achieved an A for Sociology, B for Psychology and a C for English Literature. These results mean that I am able to attend Brighton University, which was my first-choice, to read Psychology. I am really looking forward to the next chapter in my life. I would like to thank my teachers at the Marsh Academy for their hard work and encouragement."

George Evans who studied sport, was pleased with his results. "I achieved a Distinction, Distinction, Merit in Sport which is a varied and challenging course which requires you to apply yourself in order to get the Grades. I hope to go on to join the Police Force with the qualifications I have gained"

The day was also very positive for Iola Jones. "Yeah! I would like to thank everyone for their support and work in helping me to believe in myself. I gained the grades needed to study Criminology at Ruskin Anglia University in Cambridge after achieving a B in English Literature, B in Sociology and two Distinctions in Health and Social Care. Although I am sad to be leaving the Marsh Academy after seven years, I am really looking forward to what comes next."

Principal, Shaun Simmons commented: *'This year's Marsh Academy Year 13 students have performed brilliantly in both their academic and vocational courses. Every student who applied to go to University was successful, almost all to their first choice with many other students are going on to Apprenticeships or employment and some are even staying at the academy for a gap year to help support our younger students to be just as successful. Congratulations to all of the students and staff for these results.'*
