

Year 11 results day brought many smiling students at The Marsh Academy, with some excellent results using the new 1-9 grading system that has replaced the traditional A*-G grades.

Chloe Ashdown; "I was quite surprised as I wasn't expecting to do so well in Science and I am delighted with my French result. I am staying on at the academy to study A Level Psychology, Sociology & English Literature along with the EPQ."

Abby Pennington; "Before I opened the envelope I was very nervous, but the moment I found out the grades I was really pleased. I am very proud of myself. Next year I will be studying English Literature, History, Psychology and Sociology with a view to go to University in the future"

Jess Curd; "I felt incredibly pleased when I opened my results especially my English grades and I'm grateful for the support that the school has given me over the past few years. Next year I am staying at the Marsh to study my A levels in Maths, English Literature, Chemistry & Biology and looking to go to University to study Zoology "

Ella Williams; "I was over the moon when I opened my results envelope and saw the grades I had achieved, totally speechless. I have a passion for English, it is my favourite subject and my ambition is to go into journalism when I am older. "

Josh Wilmott; "I was ecstatic when I found out about my results, they could not have gone any better."

Ellie Humm; "I was really nervous before receiving my results, but once I had opened them I was really happy with my grades after all the hard work I had put in during the last two years at school. Next year I am taking A Levels so I can pursue a career in medicine."

Principal, Shaun Simmons, expressed delight with the results: *'It was of course very pleasing to see some really strong grades coming through the new GCSEs, for example Chloe Ashdown's results included a 9, three 8s, three 7s and an A grade, but we are just as proud of our students who had to work very hard to achieve 1s, 2s and 3s. Sometimes this can represent just as much success as the students achieving the top grades.'*
